PERSONAL STATEMENT

I am a highly competent IT professional with over 2 years of experience as a front-end developer, developing modern web applications that function across all modern web browsers, on multiple devices. With a passion for front-end development and an interest in backend development, my goal is to create elegant digital experiences that can greatly benefit other people and organisations.

CORE SKILLS

Technical Skills

Languages and Libraries:

- HTML5, CSS3, Javascript, jQuery, PHP, Python, MySQL, Oracle, Java, Processing

Content Management Systems:

- WordPress

Source Control:

- Git, GitHub

Soft Skills

Qualities:

- Strong initiative and prioritisation
- Confident team member, flexible, and willing to take on tasks with minimal supervision
- Effective communication and engagement with others
- Ability to work under pressure with poise and meet deadlines
- Well-developed organisational and time management skills

EMPLOYMENT EXPERIENCE

February 2017 – Present

Junior Web Developer

Coral Active

Sydney, NSW

Achievements:

- Encouraged an MVP approach to Javascript development, resulting in cleaner code and reduced merge conflicts
- Communicated with team members effectively as a project leader, for which the deadline was met
- Documented a custom Javascript library with detailed code samples, resulting in more efficient development

April 2016 – December 2016

Web Developer/Designer Intern

Digital Fuel Marketing Limited
Sydney, NSW

Duties:

- Building landing pages for stakeholders using HTML5, CSS3, Javascript and Bootstrap 3
- Making changes to the Digital Fuel website
- Creating HTML5 animated ad banners using Google Web Designer

March 2016 –April 2016

Webmaster Intern

Medteryx
Sydney, NSW

Achievements:

- Implemented design changes to company website using WordPress
- Significantly reduced loading time of the website by 75%
- Made the company website operable across modern browsers

EDUCATION

2014 – 2016
